Campobasso

Campobasso is the capital city of Molise, located in south-central Italy between the Apennine Mountains and the Adriatic coast. Sitting about 700 meters above sea level, it has cold winters (often snowy) and mild summers.

The city combines a medieval old town full of narrow streets and stairways with a more modern 19th-century district. It is known for its authentic atmosphere, strong traditions, and excellent regional cuisine.

Castello Monforte

The symbol of the city, built in the 15th century and positioned on a hill overlooking the entire area.

From here you can enjoy a breathtaking panoramic view of the city and the surrounding mountains. It is especially beautiful at sunset.

🏛️ Cattedrale della Santissima Trinità

Located in the newer part of town, this is the main church of Campobasso.

Built in neoclassical style in the 19th century, it houses the relics of San Basso, the city's patron saint.

🏛️ Chiesa di San Giorgio

One of the oldest churches in the city, built in Romanesque style.

It is located in the historic center and represents an important religious and architectural landmark.

🎭 Museo dei Misteri

One of the most unique museums in Italy.

It preserves the original structures used for the traditional “Misteri” procession. Visitors can see the metal frameworks that create the illusion of floating figures during the festival.

🌳 Villa De Capoa

An elegant 19th-century public garden, perfect for relaxing walks.

It features decorative fountains, tree-lined paths, and a peaceful atmosphere close to the city center.
